Classy Buffs

—

Kassi Butler | Scott Ewing | Gannon Faul
Lucas Hayne | D'Artagnan Wake

Registration on MyCUInfo is really bad.

- Can't see a schedule until after registration
- No prerequisite warnings until after registration
- Very little class information

We made a Chrome extension to fix that!

Tools Used

- Slack   ★★★★★
- GitHub   ★★★★★
- Trello   ★★☆☆☆
- Chrome Extension   ★★★☆☆
- Mocha   ★★★★☆
- Python Scrapy   ★★★★★

Methodologies

- Iterative/Agile
  - Sprints roughly every 2 weeks
  - Stand-up meetings every 2 weeks
  - Daily communication on Slack
- Pair/Team programming
 - Tackled difficult problems together

Product backlog

Sprint backlog

2-4 week sprint → Daily scrum meeting

Shippable product

Challenges

iFrames are the devil and JavaScript is a fake language

Chrome has things like 'security' and 'anti-abuse policies'

MyCUinfo sucks and was programmed by a silly human

Might be sued by CU Boulder if we deploy our extension to the Chrome Web Store for using logo and URL
